"The world is changed by your example not by your opinion"
-Paulo Coelho-

What's new at Enzer & Associates, PC?

Dr. Enzer is now showing his professional skills by posting videos of his in- house procedures on our Social Platforms. Are you curious how he may perform these procedures? Have you thought about getting your earlobe repaired or how laser skin resurfacing works? You now can view these videos on our social platforms, facebook and instagram!

Also, Dr. Enzer completed certification by Allergan to treat the temple area with **Voluma®!**

In April, Dr. Enzer and Ashley Wright (FNP) completed a one day training from Revance for advanced technique with **Daxxify®** and their **Teoxane RHA®** fillers. (Pictured with Kyle, Revance trainer, above)

Thank you for your reviews!

Yoash R. Enzer, MD

Excellent bedside manner & extremely professional!
Dr. Enzer was clear & easy to converse with regarding my procedure. His confident yet warm professionalism was everything I needed. He personally called to follow up on my recovery. Impressive & outstanding!! -**Patricia C.**

Ashley Wright, FNP

Outstanding!
Ashley Wright, RN is truly amazing. She always takes the time to go over each procedure thoroughly. Makes great recommendations and I truly value her opinion. Each visit is quick and painless. **-Ashley H.**

More Patient Testimonials

Laser Skin Resurfacing:
****In office Procedure****

CO2 – Carbon dioxide (CO2) lasers are the gold standard of skin resurfacing lasers. They possess the strongest power for skin rejuvenation of any device or procedure on the market while at the same time maximizing safety to avoid

Employee Achievements

Jessica (pictured above), the heart of our front desk, has been with Enzer & Associates PC for 10 years and counting! Our office celebrated her 10th work Anniversary on June 10th, 2024 with flowers, gifts, lunch and special goodies. She has brought consistency, commitment and personality to the practice. Jessica is an excellent trainer, communicator and role model. We are grateful to have had her here for these past 10 years and look forward to her continued longevity!

Donna (pictured below), our Cosmetic and Financial Coordinator will be celebrating her 15th work anniversary with Enzer & Associates PC July 27th. Throughout the years she has contributed to the practice in so many beneficial ways. She prepares our patients for surgery, starting with insurance verification, pre-op consultations, all the way to post-op questions and concerns and everything in between. She builds a rapport with our patients and is very understanding and empathetic.

These two wonderful ladies are true leaders and care a tremendous amount about our patients. They are invaluable!!

complications. CO2 lasers deliver an intense beam of light to precisely heat and vaporize layers of skin without harming surrounding healthy tissue. Co2 lasers can also be used as surgical scalpels to diminish bruising and swelling, leading to faster healing. The results are incredible – the skin's tone and texture are noticeably improved, and brown spots, freckles, scars, wrinkles, and irregular pigmentation are diminished, if not completely corrected.

- "Is the procedure covered by my insurance?"

Product Spotlight:

Epionce® is our most popular line of skin care products. Founded by a practicing dermatologist after years of research, Epionce® repairs and strengthens the skin, restoring the skin barrier while blocking inflammatory processes that lead to aging skin. Epionce® reaches a much deeper level than other skin products, working to heal your skin and reverse signs of aging. Most ingredients are extracted from natural botanicals.

Epionce products have been clinically tested against leading products to provide a visible improvement of:

- Fine lines and wrinkles
- Uneven spots and discoloration
- Rough and uneven texture
- Dry and scaly skin
- Blemished and problem skin
- Clarity and radiance

We carry many of their products in our office. Just ask our front desk staff for more information or to purchase the products.
