Spring 2024

Thank you for the reviews!

Yoash R. Enzer, MD

02/26/2024

"Dr Enzer gave my normal life back to me..."

"He is a very caring and kind man who is very knowledgeable in his field. After 13 years of being embarrassed to go out in public, I now have a normal life thanks to Dr Enzer. I am so grateful to him."

-Barbara D.

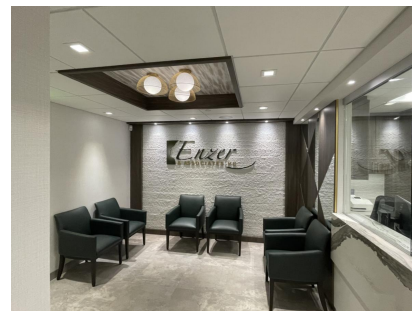

Ashley Wright, FNP

1/15/2024

"Wonderful And Professional Group!!!"

"I am a patient of Ashley Wright. She is incredibly professional, warm, and caring. Ashley explains each procedure and is always available for any follow-up questions. The office staff is efficient and friendly. Highly recommend the office of Dr. Yoash Enzer!"

- Peg R.

What's new at Enzer & Associates, PC?

*Happy Spring!! There are a few new things happening here at Enzer & Associates, PC. As many of you may know, our office was flooded in February '23. After a full year in a temporary location, we have officially **Moved** back into our newly designed office. It is beautiful! We had an "official ribbon cutting" and champagne toast. We enjoyed seeing the finished results and our patients love it!!*

*We want to introduce **Natalie,***

More Patient Testimonials

Are you ready for **SUMMER** legs?!?

At Enzer & Associates P.C., we offer spider vein treatments for women and men with noticeable spider veins on their faces, thighs, and legs. For many individuals, spider veins can be an unwelcomed nuisance that causes them to feel self-conscious about their appearance. Our team at Enzer & Associates can provide you with outstanding results from your spider vein treatment in RI.

Sclerotherapy

In our office we use Sclerotherapy to treat the small red or purple leg veins also known as spider veins. We use concentrated salt water solution to irritate the vein, causing it to scar closed.

our new Medical Assistant. *Natalie*, also owns a permanent makeup business in Cranston, and is very in tune with the cosmetic industry.

Alicia joined our front desk staff, bringing with her many years of experience with administrative roles. You will be greeted by her smile and "can do" attitude when you step through the door. A volleyball enthusiast, *Alicia* played for Bryant College and was also a Club Volleyball Coach .

Product Spotlight:

elta
md
SKINCARE

Water-resistant formula for up to 80 min.

DAXXIFY®
daxibotulinumtoxinA-lanm injection

Have you heard of the injectable **Daxxify®** to reduce facial wrinkles?

Until now, there was never

ELTA MD is a physical sunscreen favorite at our office for its transparent zinc oxide. It is oil-free (safeguards against breakouts) and fragrance-free (scent can also be a skin irritant). This is a great option for acne-prone or post-procedural skin.

ALL SKIN TYPES

For those who want chemical-free active ingredients, UV Pure is the ideal daily sunscreen. Great for children and adults, the gentle formula glides on wet or dry skin and rubs in quickly. UV Pure is formulated with purely physical active ingredients which are photostable.

NEOS (New England Ophthalmological Society) is on Friday April 12th, 2024.

Recent Physician Meeting

Dr. Enzer was honored to be the Chair and moderator of the 795th meeting for NEOS. He had been preparing for this meeting for over two years, inviting and organizing guest speakers, many from out of town. There are over 1,000 guests invited and a Sub-Specialty meeting for Oculofacial Plastic Reconstructive Surgery hasn't taken place in over four years. He was excited to share and educate all the guests on the most current approaches to patient care and update the audience on the latest research in his field.

an injectable wrinkle treatment formulated with a peptide.

The peptide helps stabilize the active ingredient, instead of using human blood products like the other neuromodulators. The peptide also enhances attachment of the active ingredient, acting like a magnet and making more toxin available to enter nerve cells. The bottom line: Daxxify is the longest lasting neuromodulator available in the U.S.A!!

Other neuromodulators available at Enzer & Associates, PC:

BOTOX®
Dysport®
Xeomin®
Jeuveau®

Did you know?

More Men Are Embracing Botox in a Trend Known as #Brotox

It's the most common minimally invasive procedure among men.

- Demand for Botox **amongst men** is on the rise, with the hashtag #BroTox taking off

on social media. Many experts say that, despite the wrinkle-reducer traditionally being thought of as a “feminine” product, more and more men are indulging in these treatments.
